### What is ResearcherID?

ResearcherID provides a solution to the author ambiguity problem within the scholarly research community. Each member is assigned a unique identifier to enable researchers to manage their publication lists, track their times cited counts and h-index, identify potential collaborators and avoid author misidentification. In addition, your ResearcherID information integrates with the *Web of Knowledge* and is ORCID compliant, allowing you to claim and showcase your publications from a single one account. Search the registry to find collaborators, review publication lists and explore how research is used around the world!

Did you know you can associate your ORCID ID with your ResearcherID account?

- I would like to create an ORCID record.
- I already have an ORCID record.
- No, thank you.

The Open Researcher and Contributor ID (ORCID, Inc.) is a non-profit organization that provides a central registry of unique identifiers. These identifiers can be used within various research systems.

By creating an ORCID you will be able to link your ResearcherID account to your ORCID record.

### Adding Publications to this list

You can add publications by searching *Web of Science*<sup>™</sup>, searching *Web of Science*<sup>™</sup> Core Collection, using *EndNote*®, or uploading a file. To add publications, click the **Add** link located in the menu on the left-hand side of your screen, or by clicking on the **Add Publications** above.

\* Note: Access to *Web of Science* and *Web of Science Core Collection* are based on the entitlements of the computer where you are accessing ResearcherID.

Please remember to only add publications that you have authored to this list. This list will be used by *Web of Science Core Collection* to create a Distinct Author Set, which is a set of papers that will be associated with your name, and your ResearcherID number will be displayed on the *Web of Science Core Collection* record. This allows *Web of Science Core Collection* users who find one of your papers on this list to find all of the other papers on this list.

## Search Tips

You can find researchers who have registered with ResearcherID.

To search for a researcher, enter their name. For a first name, try entering either just an initial or the entire first name. Check the "other names" checkbox to search the Other Names field for either the last name or first name search terms.

Use the wildcard character \* at the end of a word to find matches with any ending (for example, Penn\*).

Or, if you know it, you can enter just the researcher's ResearcherID.
